

AgroLiquid - Commitment to Environmentally Friendly Products (College Rotational Version)

Learning Stations for Students –

STATION 1: IQhub Scavenger Hunt (College Version)

- (40 min) Students will work individually or in small groups, to explore the IQhub. This is where they can see the 24 museum quality exhibits and learn all about agriculture and the environment.

STATION 2: Leadership in Energy and Environmental Design (LEED) Building Tour

- (20 min) The LEED Building tour is a great way to open student's eyes to the ways a building can be environmentally friendly. AgroLiquid values taking care of the Earth and their building reflects those values too!

STATION 3: Chemistry Presentation

- (30 min) Come along to see how AgroLiquid products are compatible with each other and the environment. Students will understand how important chemistry and research are for plant nutrition and producers.
