

# **Real Science - Why is being “Green” and the Scientific Method so important? (College Rotational Version)**

## **Learning Stations for Students –**

### **STATION 1: IQhub Scavenger Hunt (College Version)**

- (40 min) Students will work individually or in small groups, to explore the IQhub. This is where they can see the 24 museum quality exhibits and learn all about agriculture and the environment.

### **STATION 2: Leadership in Energy and Environmental Design (LEED) Building Tour**

- (30 min) The LEED Building tour is a great way to open student’s eyes to the ways a new building can be environmentally friendly. AgroLiquid values taking care of the Earth and their building reflects those values too!

### **STATION 3: Real Science Presentation**

- (20 min) Come along to see the Scientific Method in full force! Students will understand how important research and data are for plant nutrition and producers.

## **Possible Careers Discussed in today’s IQhub visit –**

- Farmer
- Food Scientist
- Nutritionist
- Chemist
